

Public Notice — Environmental Permit

PURPOSE OF NOTICE: To seek public comment on the proposal to utilize an alternate groundwater point of compliance (APC) at the below-described solid waste landfill with a permit issued from the Department of Environmental Quality.

PUBLIC COMMENT PERIOD: May 15, 2013 to June 14, 2013

PERMIT NUMBER: SWP 258 – Russell County Landfill

FACILITY NAME AND LOCATION: The applicant landfill, located in the County of Russell is located on Copper Ridge, along State route 667. The landfill is located on the Carbo and Hansonville, Virginia, USGS 7-1/2 minute topographic quadrangle maps,

DESCRIPTION: The landfill has requested a variance to locate one of its groundwater monitoring wells somewhere other than at the edge of the landfill waste mass as is normally required by the Commonwealth's solid waste regulations. The applicant has demonstrated that moving the location of the monitoring well further from the edge of the waste mass will not result in an unreasonable risk to public health or the environment and will result in facility design that is equally protective of human health and the environment. If approved, this variance will allow the facility to locate MW-7 approximately 450 feet downgradient from the edge of the waste mass, but the well will remain located on landfill property.

HOW TO COMMENT: DEQ accepts comments by e-mail, fax or postal mail. All comments must include the name, address and telephone number of the person commenting and be received by DEQ within the 30-day comment period defined above. The public may review all related variance petition documents at the DEQ Regional office named below.
